Truckee Hunter Is Critically Hurt In Fall In Wyoming

Harold E. Dent, 36, of Truckee, who was critically injured when he fell off a cliff and bounced down the hillside some 300 feet near Kemmerer, Wyoming, while deer hunting last Thursday morning, was expected to arrive home this week. He was being flown home and will be incapacitated for some time with a broken leg, head injuries and multiple lacerations and abrasions.

Dent was hunting with Chuck Lomax, also of Truckee about 9 a. m. Thursday morning when he lost his footing and fell, going end over end down the cliff.

Lomax rushed to a camp established by a group of local people some ten miles distant to summon help. Lincoln County Sheriff Earl Ellsworth was notified and the Truckee party went to the aid of Dent.

In the group were Jack and Cliff Ellis, Karl and Kary Kielhofer, and former local residents John and Dick Lloyd and Kenny Lloyd. They arrived at the scene of the accident about 9 a. m. but for a time were unable to reach the stricken hunter. When a helicopter was unable to reach Dent, the rescuers worked their way to him and started out about 5 p. m. After seven hours they reached a road and an ambulance and Dent was taken to the Kemmerer hospital.

It was at first feared he would not survive but he rallied and was able to make the plane trip home.

Fox said he has been working to have this regulation enacted for several years, since it provided a hardship for many motorists using the route during winter months. The same regulation now applies on the Truckee-Sierraville road and around Lake Tahoe and on Route 89 .to the intersection of the freeway.

The new order came from R. I. Nicholson, district maintenance engineer and will be effective immediately.

Clocks Turn Back Sunday As Time Again Is Changed

The easiest way to remember which way to turn the hands of the clock when the semi-annual change of time takes place is to recall that in the fall, fall back and in the spring, spring ahead.

So, Saturday night before going to bed, turn the clocks and watches back one hour as we return to standard time for the next few months. It seems ridiculous to keep switching time, but that's the law of the land.

The change means that you can remain in bed an hour longer, but to keep regular hours you must retire an hour later.

Bus schedules will change Sunday and N. F. Dolley and Paul Doyle of the D&D Agency remind those using the buses to check for new times. A printed schedule will be available and may be obtained at the D&D office.

The second half opened with a bang as the local boys came onto the field inspired and quickly added two tochdowns, the first when Gregg carried the ball over after a series of line smashes and the second, a few minutes later, when a Wheatland punt was blocked on Tahoe-Truckee's ten yard line by Steve Felte, recovered and carried across the nearby goal line by Ed Hoff. Old Car Dump At Alder Hill Cleared

Through the efforts of Supervisor H. G. Loehr, one of the principal eye-sores in the area was eliminated last week when the old auto bodies, which had been dumped at Alder Hill were buried, the ground leveled and seeded.

The 60 or 70 old bodies were dumped there over a long period of time and created an unsightly nuisance, particularly for the home owners in Prosser Heights. The dump was located about a mile north of the freeway near Route 89.

The many friends of E. J. Stokes were saddened when he passed away Tuesday at his home in Kings Beach. Surviving are his wife, Helen, and daughters, Helen M. Soles of Sacramento and JoAnne Apichini of South Tahoe, and four grandchildren and two great-grandchildren.

Memorials to E. J. are being made to the Shriners Hospital and were requested instead of flowers. Contributions should be made to the Crippled Children's Hospital and may be left at the Crystal Bay Club for forwarding to the memorial fund.

Our deepest sympathy to the Stokes family.

An invitation was received in today's mail from the chamber of commerce served by Interstate 80 (Highway 40) to attend the public exercises marking the dedication of the new freeway at Donner on Sunday, November 1 at 1 p. m. This is an exciting occasion and we hope the public will attend this opening which has long been anticipated.

As a child, we rattled down the old Donner Summit road, under the railroad and across and wondered if we'd ever reach the bottom or the top. On the way to Reno, the old Dog Valley grade seemed just as rugged especially in a rainstorm. Nowadays, its the traffic that is hazardous not the roads, and we offtimes wonder, is this an improvement?

'Little Gal of the Golden West' Is National March of Dimes Child

A blue-eyed lady of four years, known affectionately in her home town of Denver as the "Little Gal of the Golden West," is the 1965 National March of Dimes Child. Her name is Michaeline ("Mickey") Lea Heinicke.

Mickey symbolizes the quarter-million American infants born every year with severe birth defects on whose behalf contributors to the March of Dimes have financed programs of research, medical care and education.

Mickey's mother, Maxine, tells of the tragedy that today befalls one in ten families in the United States.

"Like tens of thousands of other couples, Paul and I were heartbroken and numb when we learned the truth a few days after Mickey was born. I am a nurse, and I had had some experience with babies born with an open spine, which was the case with Mickey. I was under no rosy illusions that this third child of ours would ever walk.

"But," asks Maxine, "do you remember that song, 'Did You Ever See a Dream Walking?' The refrain comes back to me every time I see Mickey walking on her crutches and braces, or furiously riding her hobby horse in the parlor, or doing an Indian war dance to her phonograph records. I say to myself, 'that's my little dream walking.'

"But my husband and I would never have experienced this real-life dream without March of Dimes help."

Mickey, whose spinal rupture was repaired when she was only three days old, is now midway through a tour that precedes the coast-to-coast March of Dimes campaign in January. Although severely handicapped, this four-year-old thrives on the long days, tedious air-hops between cities, appearances at conventions and the strain of meeting Senators, Congressmen, Generals, stars of stage and screen and other public figures.

Mickey is already a veteran trouper, unimpressed by the mighty in high places. Her mother says, apprehensively:

"In January, when we expect to have the privilege of visiting the White House, I know I will faint dead away when Mickey will undoubtedly bubble over to the President, 'Hiya, Podner,' or something awfully familiar and western to the First Lady."

Birth defects are the greatest medical problem threatening the nation's children. To help provide patient aid in this area, contributors to the March of Dimes now support 50 treatment and study centers at leading medical centers and university-affiliated hospitals.

Basil O'Connor, president of The National Foundation-March of Dimes, says that the need for many more such centers is acute.

"Birth defects," he adds, "are a much more serious problem than polio ever was.

"To attain the same successful end that was achieved in eliminating polio, we need not 50 birth defects centers but fully 150 centers to help these afflicted infants and children. Funds are also needed desperately to support research inquiries into the many scientific problems involved.

"I sometimes look at the crippled Mickeys around our country, at children born without arms or legs, at other tots doomed unnecessarily to lives of mental retardation—all due to birth defects; and I wonder how many of our warmhearted citizens can fail to demand and to finance a means to end this shocking destruction whatever the cost."

WHOA! Aboard her pony, Mickey Heinicke, 4, Denver, 1965 National March of Dimes Child, reins in for benefit of photographers.

NEWS FROM DONNER TRAIL

By Betty Kielhofer

Hi, neighbors, we all returned from Wyoming with our bucks, in fine shape and are ready to work again after a fine vacation.

You've probably heard about the misfortune of Bill Dent falling from a high rock shelf some 300 feet or more, but late reports are that he's doing fine and should be flown to the Tahoe Forest Hospital soon. We truly saw the work of a miracle there. Welcome home, Bill.

Now, what's new in the world of real estate? Clare and Aldo Perino of Reno have taken a new home in Olympic Heights, formerly owned by Oral Gentry. Aldo works as a printer for the Sierra Sun and they have been cleaning and painting frantically for three days. Never saw such progress in such a short time.

Have you noticed the work going on at the Alpine Riverside? All the old paint has been removed and a new face is about to emerge. This will really help Truckee's Little White Way!

Did you know that Tom and Ella Dolley are building a new home in Incline Village where he is now employed as a security officer? It should be ready by the 1st of December. They had both worked so hard fencing and landscaping their home in Olympic Heights. Too bad they couldn't have enjoyed the fruits of their labor.

I understand that the Chuck Bakers of Donner Lake have leased the Pendergrast home in Donner Trail Estates and that Tom Pendergast will be teaching in Sacramento this year.

Replacing Dick Paddock in the Motor Vehicle Dept. is Elwood Bouillez (pronounced Bol-yay), who, along with his wife Allene, will rent the Paddock home. I'm sure you'll like this lively young couple with their warm, friendly personalities.

Winifred Edmunds has taken quarters in the Welch apartment on the hilltop behind Truckee and professes to be most comfortable.

If you've been wondering what type of structure is going in on the hill behind the Catholic Church, you might talk to Francis Longo as I just did. Seems the Truckee Public Utility District is building a brand new sub-station. This has been talked about for so many years that its hard to realize its actually underway.

If you ever want to inspect a large acreage the fast way, hire a helicopter. Eve and I had occasion to do so recently and hitched a ride over White Rock. It's the only way to travel, believe me! This country is truly magnificent. From low altitude and with slower air speed, you get the full realization.

See you with more news next week.

Rice was first successfully grown in North America about 1680 from seed brought by a ship's captain from Madagascar to South Carolina.

Why Pay Twice?

It would cost Californians over $300,000,000 in additional social security taxes for the proposed federal "medicare" plan—*where medical care programs are already provided for those over 65*

The physicians of California consistently have maintained that adequate medical care should be available to all people of this State, regardless of race, creed, color or financial status.

For those over age 65 in California, health care is provided in many ways. There are medical insurance programs which can be bought independently at reasonable cost. Other private and public programs are available where extensive medical costs would be a hardship.

The recent Kerr-Mills law, for example, enables California to provide broad benefits to those over 65 who might have difficulty in meeting the expenses of prolonged illness. With its full application in this State, as urged by California physicians, the Kerr-Mills law would be even more effective in covering physician, hospital, nursing home, drug and dental needs.

No better care for the elderly will be provided by taking an additional $300,000,000 in "medicare" social security taxes out of your pockets, when health care programs are presently available.

Electric home heating is the really modern way—clean, automatic, safe, and so convenient. You can have a chimney if you want it, of course, but you'll save many dollars on home building with easy-to-install, economical electric heating.

The division of highways gave us a reminder the other day that the snow will eventually be here when they installed those familiar orange snow stakes along the edge of the hiway. It's bound to come—that cold wet weather, ending these beautiful warm still days.

Fall colors are becoming more brilliant now due to the cooler nights. The wild roses and willows along the shore are lovely.

Although the fishing season is drawing to a close, the Kokonee are just beginning to bite again. It's enticing, too, to go out and catch those rainbow that are forever jumping, forming rings in the mirror like water. Donner Lake is again dotted with fishing boats.

A full house at the State Building in Reno last week showed that skiers are getting anxious for those slopes to be operating again. Attending the Warren Miller ski movie were: the Schooley's, Hadley's, Marquette's, Wiser's, White's, Evelyn Alexander, Babette Haueisen, Nancy Brodie, Bud Zorich, Col. Frazer West and many others from our area.

Always humorous with his commentary and picture taking, Warren Miller missed taking the highlight of the evening, Dr. Ray Wiser's family of six squeezing into their new tiny foreign car. They made it too!

The Harvest Moon Ball, sponsored by the Donner Lake Volunteer Fire Department Auxiliary, will take place at Capitol Hall in Truckee Saturday night and the admission is only $1. Silverware to be given away during the evening is now on display at Besio's and Cobona's.

Chairman of the dance committee, Muriel Wiser has engaged Frank Austin and his four piece band to play from 9 to 1 a. m. Pat Wurst, in charge of decorations, promises a gay atmosphere for the cottons and jeans set. Some of the gals are planning a surprise act some time during the evening.

Firemen will be bartenders and snacks are being prepared by auxiliary members. Come join in the fun.

Georgiana King and I were buzzed by a helicopter while out trolling late one afternoon, guess they wanted to count the number of fish we caught. Only one Kokonee was in the bottom of the boat and they were close enough to see it's scales. Wow!

The Donner Lake Property Owners' Association will be having a beach clean-up work party this weekend. They plan to bring more sand up from the bottom of the lake to spread over the south beach, thin out some trees and limbs, clean out the lagoon and store away swimming facilities. Hope the weather hold out.

"Wog" Horton is back on his feet again after recovering from an operation. He enjoyed seeing the Yanks and Cardinals play in the World Series over TV while recouperating in bed.

Joe and Marcella Corro of Lake Shore Motel recently returned from a trip to Las Vegas. Death Valley and points south. They visited with her brother who operates the Desert Sands motel in Needles, California. The air-conditioners are still in use down there with the temperature reaching in the 90's.

"Pedie" Brown was recently married in Reno to Roe Downey in a double ceremony with their friends Barbara and Vern Rieswig of Sacramento. Mrs. Downey is a well known waitress in the area and her husband drives a truck for a local firm. Much happiness to all four of you.

Texas, the little family pet of the King family was struck by a car in front of their home at Donner Lake, and the last report is the little dog is going to be alright.

In this day and age...

SHOULD GARAGES BE FORCED TO HIRE BLACKSMITHS?

No more than railroads should be forced to hire firemen on diesel freight locomotives where there are no fires to tend nor coal to shovel.

It would cost *you* money every time your car was in the garage if garages had to hire featherbedding blacksmiths.

And it costs *you* money every day in higher freight rates on the food and goods you buy because an old horse-and-buggy-days law requires California railroads to hire featherbedding firemen.

Proposition 17 repeals that costly, outmoded law. Proposition 17 makes it possible for California to put into effect the national transportation settlements—worked out by Congress and Presidents EISENHOWER, KENNEDY and JOHNSON—which eliminate wasteful featherbedding in the railroad industry under terms that insure maximum job protection, yet retain two men in the cab of all trains.

Keep California competitive...

what's doing?

You're seldom far from a phone these days. There's at least one in most homes, nearly all business offices, and at handy public locations.

Wasn't always so, you know. Used to be that people had to run down to the local drugstore or soda fountain to make a call. But over the years we've kept changing, improving and developing our equipment and service to make the phone a truly commonplace wonder. Today you can reach some 170-million phones round the world—without budging a foot outside your door.

"Bakery" for telephone cords. Ever wonder how the coiled cord on your telephone gets its spring? First, the cord is made from the following ingredients: bronze, nylon, plastic, paper, brass, silver and a wee pinch of mica dust. *Then it's tightly wound on a steel rod and baked in a 268° oven for eight minutes.* Baking "sets" the coil shape and gives the spring action that lets your phone cord stretch for convenient use, then coil back neatly and safely out of the way.

Pacific Telephone urges all its subscribers in the Tahoe, Truckee and Soda Springs area to be sure and vote on Tuesday, November 3.

California is one of the "growingest" states in the country. And to match this growth, your phone company has been pumping more than a million dollars a day into California's economy. That's just for the construction of new and improved phone facilities to meet the increasing need for service. By continuing our investment in good, growing telephone service for our present and new customers we are helping to build a more prosperous California.

COMMISSION TO MAKE PROJECT INSPECTIONS

State Senator Paul J. Lunardi today announced that a subcommittee of the California Water Commission will inspect plans for the multimillion dollar projects of Nevada Irrigation District and Placer County Water Agency.

Legislation authored by Senator Lunardi during the 1963 session provides for recreation grants of $3,500,000 to Nevada Irrigation District, and $3,000,000 to Placer County Water Agency.

"Grants authorized by these bills are subject to findings by the department of water resources," Senator Lunardi explained. "The Water Commission investigates such projectos and makes recommendations to the Director of Water Resources.

"In addition, the commission has direct responsibility for approval of the so-called initial water supply and sanitary facilities grants, which in the case of Nevada Irrigation District is an additional $875,000, and $308,000 for Placer.

"We in Placer and Nevada Counties know that our projects have tremendous recreational potential, and welcome the commission members to see for themselves what we have to offer," Senator Lunardi said.

No one likes flat tires, but it is sometimes an ill wind—Coming down Mt. Rose from Reno to Incline Village the other morning, Jack Sommers was much chagrined when he had a flat tire. Since he had no choice, he proceeded to change tires. Imagine his surprise when a four point buck was staring him in the face. However, he was prepared and has a 250 pound buck to prove his hunting prowess.

Jack advises that the Chataux operation is being taken over by the Sierra Tahoe—Pacific Bridge.

Dick and Ruth Lavery are visiting John and Jerry Rayburn at Incline Beach. The Laverys are planning a Mexico ttrip with Tom and Theresa Sutton soon and expect to be away several weeks. Tom and Theresa made a quick trip to the North Shore to attend the services of E. J. Stokes. At present they are living in Walnut Creek after many years on the North Shore.

New residents to Incline Village from Reno are Harold and Joan Riley and children, Debbie, Terrie and Scott. Harold is associated with Incline plumbing and the Rileys are very happy with their new home.

The tennis courts at Incline Village are almost a reality. Pouring of the cement was done last week and eligible Pete Paxton is back from Beverly Hills to supervise the operation. Understand Tony Trabert will be the associate pro. Tennis enthusiasts will need no introduction to Tony as he is well known and an asset to any operation.

Happy birthday to Carl Bechdolt, Sr., of Tahoe City who celebrated his birthday on October 15th.

Enjoying luncheon at the Beach Pavillion Friday were Fred Schultz, Velda Farris and Bethel Van Tassel. The only problem discussed was the choice of lunch!

The Women's Club of North Tohoe will meet Monday, October 26 at the Sierra Tahoe in Incline Village. Cocktails will be served at noon and luncheon at 1 p. m. Mrs. Ilene Wilen will present a program on fall flower arrangements. Reservations may be made by calling the Sierra Tahoe.

HOSPITAL ELECTION

No doctor who is an active member of a medical staff of a public hospital should be permitted to serve as a director of that hospital.

If staff doctors are allowed to serve on the board of directors, soon there could be an all-doctor board with no administrative body of impartial citizens to govern the medical staff.

An objective board is necessary to prevent medical monopoly and to protect the taxpayer against possible exploitation of public funds.

Just as a school teacher should not serve on a school board, doctors should not serve on the hospital board.

This is the opinion of the Citizens Committee for Public Hospital Improvement,

AIR FORCE GROUP AT TAHOE HOLDS MEET

TAHOE CITY—The Lake Tahoe squadron of the Air Force Association met Monday evening in the Tahoe Lake school to preview several interesting films produced by the Shell Oil Co., that is to be a project in the area schools, according to Marie Henry of Tahoe City.

One film took the spectators over the world, from San Francisco into international places of interest.

Commander Darrel Smith of Tahoe City will distribute posters and registration cards to the boys and girls of each school in the area who wish to make application for an aerospace design competition. The eligible age group is from 8 to 18 years for building model planes, missiles or space vehicles.

There are no classes to attend and the imagination of the student may be exercised in the competition. Prizes will be offered for successful effort and it is also announced that workable, original ideas may be patented by the young contestants.

Tahoe Plan Meet Set For Nov. 4th

TAHOE CITY—The Placer Planning Commission will hold its next public hearings on the Tahoe Regional Plan and on the proposed new zoning maps for the Tahoe Area in the Tahoe City Community Center on November 4, at 9:45 a.m., Chairman C. A. Gibbs announced today.

The last meeting held in Auburn, Gibbs said, indicated such a high degree of interest in these planning and zoning proposals that the commissioners felt that a full day would be required in the Lake Tahoe area, in order to hear all of the suggestions and comments by lake residents and property owners.

According to Mr. Gibbs, the hearing will be continued until all property owners and groups have an opportunity to express themselves on the Tahoe Regional Plan and proposed zoning maps. Many other worthwhile suggestions have been introduced into the recommendations so far, said Gibbs, and they anticipate further hearings will produce much more valuable testimonies for the commission's' consideration.

Persons wishing to communicate their ideas on these subjects to the Placer County Planning Commission may do so by writing to the Placer County Planning Department at 219 Maple Street, Auburn

MARIE HENRY STUNG BY SWARM OF BEES

TAHOE CITY—It was a narrow escape for Mrs. Marie Henry of Tahoe City last week when she was repeatedly stung by yellow jackets from head to toes, when she bumped into a nest of the insects in a wooded area near her home.

Mrs. Henry hurried home when she felt the affects of the stings and called a doctor to ward off what might have been a serious result. She made light of the experience but would not care for another like it.

In an effort to disperse the intruders from her head, Mrs. Henry had the misfortune of breaking her glasses and hearing aid.

Traffic Decline Is Shown In Report

Traffic through the Truckee quarantine station showed a decided decline during September compared with a year ago, according to a report from the state department of agriculture.

There were 147,157 cars, 5,507 trucks and 796 buses checked going into the state last month, compared with 201,846 cars in September, 1963.

Traffic passing the 18 stations during September showed one of the smallest increases from a year ago that has been registered in many months. Probably due to the gambling attraction at South Tahoe, the Meyers station for the first time recorded the highest number of passengers of all stations.
